

# TOP TIPS FOR STAYING SAFE ONLINE:

1234

Have different PIN numbers for different cards

\*\*\*\*

Change your password for your online account regularly

Avoid accepting friend requests from strangers on social media sites

Check your credit card statement on a regular basis for suspicious activity

Register your cards with Verified by Visa or Mastercard SecureCode which protects your card from unauthorised use

Avoid making credit card payments whilst on an open WIFI network as these are easy targets for online thieves

https://

Always check the website address which should begin https:// rather than http://

Keep your personal details secure – birth date, address and names can all help a fraudster crack your password
